

Special Information for Medicare Patients

Fauquier Hospital is required by federal law to copy your Medicare card each time you receive services at our facility. We are also required to ask you the Medicare Secondary Payer Question each time you receive services. So although you have answered these questions before, We are required by law to ask them again. We apologize for the redundancy.

A few of the questions we will ask you for the Medicare questionnaire include:

- Social Security numbers for patient and spouse (if the patient is a minor, Social Security numbers for parents and the minor patient)
- Retirement dates for patient and spouse

Both parents' dates of birth for a minor patient
