Our mission of Making Communities Healthier® has always been central to the contributions we make to Northern Virginia. As our region found itself impacted by the COVID-19 pandemic, that mission became even more critical to the well-being of our community. We are proud to be part of a national healthcare network that provided quality care for more than 20,000 COVID-19 patients in 2020 – including those here at home. LifePoint Health’s continued support – and yours – allows us to create places where people choose to come for healthcare, physicians want to practice and employees want to work. As we look ahead to a bright future, we look forward to further enhancing how we serve our neighbors today and for generations to come.

In 2020, we...

- added 42 employed, affiliated and telehealth providers
- made nearly $4 million in capital improvements
- distributed a payroll of $59,272,243 to more than 800 employees
- donated more than $12.5 million in services to those in need
- paid $9,832,788 in taxes

Inviting the best possible providers into our community and supporting them is essential to ensuring access to high quality care. This year, we added providers in emergency care, retina surgery, cardiology, hospital medicine, OB/GYN, orthopedics, neurology, podiatry, primary care, interventional radiology and more.

By continually investing in our facilities, we’re helping to ensure that we continue to meet our community’s healthcare needs. This year’s investments included robotic surgical technology, new operating room video towers and a partial roof replacement.

We strive to create an environment where talent is recognized, job satisfaction is valued and our employees can effectively use their skills to provide high quality care and service.

Delivering care to all of our neighbors, regardless of their ability to pay, is foundational to our mission and our commitment to our community.

We are proud to be a leader in our region, and our dedication to ensuring fiscal responsibility extends both to our hospital and to our community.
### Economic Impact
